A detailed topographic map of a forested area, likely a research site. The map is divided into numerous small plots, each labeled with a number from 1 to 26. Some plots are also labeled with Roman numerals (IX). Two specific areas are highlighted in pink: one near plot 19 and another near plot 23. These areas contain circular symbols with letters 'H' and 'E' respectively. A road labeled 'M-L-1004' runs diagonally across the center. Another road or path labeled 'M-L-1003' is visible at the bottom left. Various geographical features are indicated by different colors and symbols: green for forest, brown for paths, blue for water bodies, and yellow for roads. Labels such as 'Kellerfeld', 'Otterloher', 'Holz', and 'Braun' are scattered throughout the map. The overall layout suggests a systematic survey or study of the forest environment.
